

## Minutes - July 19, 2007

**Present:** Hans Noeldner, Lynne Diebel, Cliff Robson, Colleen Lorigan, Caroline Werner, Jane Sheffy and Suzanne Wade

The first half of the meeting was devoted to learning about watershed management from Pete Jopke, Dane County Watershed Project Management Coordinator. Watershed management includes knowing how development and agriculture affect water resources. Pete told us what he does as a coordinator and discussed what's involved in stream monitoring. He also gave us a brief overview of funding that may be available.

The second half of the evening was devoted to organizing our group with the continuing assistance of Suzanne Wade, UW Extension Rock River Basin Educator. Now that we know what we would like to accomplish in five years, we are setting up a structure to facilitate accomplishing those goals.
